

Tipi di raccordo a vite di compressione e grub

Labfacility are the UK's leading manufacturer of Temperature Sensors, Thermocouple Connectors and associated Temperature Instrumentation and stockings of Thermocouple Cables. The Company has been trading since 1971 and is ISO9001 accredited.

Datasheet

Raccordi bayonet - Tipi di raccordo a vite a compressione e grub

Se montata, una baionetta che monta la molla carica il sensore per mantenerlo in contatto permanente con la superficie misurata. I raccordi a baionetta sono particolarmente adatti per il montaggio di sensori in estrusori in plastica, macchine per lo stampaggio a iniezione, ecc...

Specifications

When fitted, a bayonet fitting spring loads the sensor to keep it in permanent contact with the measured surface. Bayonet fittings are particularly suitable for mounting sensors in plastic extruders, injection moulding machines, etc
Stainless steel
Compression & Grub Screw Fitting Types
For 3.0mm, 4.5mm and 6.0mm probe diameters
