|                     |                                                                       |
|---------------------|-----------------------------------------------------------------------|
| Product Code        | XE-5520                                                               |
| General Description | Compatible with Pt100 platinum resistance thermometers                |
| Sensor Type         | Surface Mounting for remote installtion                               |
| Cable Length        | 1m                                                                    |
| Core / Strands      | 7/0.2mm                                                               |
| Cable Termination   | Bare tails                                                            |
| Thread              | Entry Threads M16                                                     |
| Transmitter         | Yes                                                                   |
| Range               | -50°C to +150°C or 0°C to +400°C (either can be re-ranged if desired) |
| Output              | 4-20 mA output                                                        |
