Statement on PFAS and EU/UK REACH Compliance.

Labfacility is committed to protecting human health and the environment. We recognize the public and regulatory concern surrounding Per- and Polyfluoroalkyl Substances (PFAS), often referred to as 'forever chemicals,' due to their persistence and potential environmental and health impacts.

This statement clarifies our position regarding PFAS and our obligations under the European Union's (EU) REACH Regulation (EC No 1907/2006) and the UK REACH Regulation (SI 2019 No. 758).

Current Regulatory Status: PFAS are currently subject to restrictions under both EU and UK REACH. Substances that we are closely monitoring include PFA (Perfluoroalkoxy) and PTFE (Polytetrafluoroethylene) which are both currently permitted for use as an insulator or sheath material in cables.

We are committed to full compliance with all present and future REACH obligations concerning PFAS. Our commitment extends to maintaining transparency in our supply chain regarding the presence of any Substances of Very High Concern (SVHCs), which includes an increasing number of PFAS.

Yours faithfully,

Paul Sanders,
Operations Manager,
