COMPLIANCE STATEMENT for (EC) 2024/590 Ozone Depleting Substances

This statement confirms that Labfacility actively monitors and complies with the requirements of **Regulation (EU) 2024/590** of the European Parliament and of the Council on substances that deplete the ozone layer.

The products and materials supplied do not intentionally contain any of the ozone-depleting substances (ODS) listed in Annexes I and II of Regulation (EU) 2024/590 (including Chlorofluorocarbons (CFCs), Halons, Carbon Tetrachloride, 1,1,1-Trichloroethane, Hydrochlorofluorocarbons (HCFCs), and Bromopropane, among others).

Our operations strictly adhere to Article 4 of the Regulation regarding the production, sale, import, export, and use of restricted ODS or products containing such substances.

While our products are manufactured without the intentional addition of ODS, minute, analytically detectable traces that may originate from background raw materials, auxiliary agents, or processing additives cannot be entirely excluded. However, any such traces comply with applicable regulatory thresholds and do not represent intentional usage.

We remain committed to delivering safe, environmentally responsible, and legally compliant products to our customers.

Yours sincerely,

Paul Sanders, Operations Manager,
